

we thought just walking
it in would be enough...
now offering snap-tight
foam panels in 3
thicknesses for every fast
and easy PEX installation need.

T45

Thin:::thickness 1.8"

S45

Standard:::thickness 2.8"

U45

Ultimate:::thickness 3.3"

CREATHERM™

Install wherever radiant heating is used. Panels provide an efficient thermal and sound barrier between ground and slab. They allow for precise radiant tube layout and lower labor cost.
