

# MagnaClean™ DRX

**ADEY Innovation LLC (724)**

Compact and cost-effective, the 2", 3" and 4" ADEY® MagnaClean™ DRX magnetic dirt filter range protects small to medium sized commercial hydronic heating systems from the dangers of damaging iron oxide.

Built to ASME standards, this filter design consists of an innovative magnetic belt, containing numerous high-performing neodymium magnets, wrapped around a precision-engineered stainless-steel canister for easier installation and servicing.
