

JG ProLock Twist-to-Lock Fittings

John Guest USA, Inc. (107)

The JG ProLock range of Twist-to-Lock fittings are offered in sizes from 3/8" to 1" CTS in a variety of configurations for traditional plumbing & commercial applications. They feature an audible click to assure technicians with a leak-free connection. The fittings require no tools and are listed with NSF International Standards, CSA Standards pw & IAPMO Plumbing Codes.
