

Argosy Buffer Tank

Flexcon Industries/Stringer Sales (517)

The BUF series of Flexcon Argosy Composite Buffer tanks come in 22,40,55,80 and 120-gallon sizes. Nearly half the weight of comparably sized steel buffer tanks, Flexcon BUF tanks allow for more ease of installation by contractors. Backed by a 5-year warranty, NSF61 Certified for potable water use, insulated with 2" foam, rated to 180 degrees Fahrenheit and will not corrode when used on chilled or hot water applications, professionals can count on Flexcon Argosy Composite Buffer tanks to keep chilled water chilled and hot water hot for many years of use.
