AQUV Ultraviolet Systems

Category: Water Treatment

AQUV ultraviolet systems provide whole-home water disinfection without the use of chemicals. Ideal for the home, farm, or cottage owner, all systems are IAPMO certified to NSF/ANSI 61 and CSA B.483.1. Available in 8, 12 or 20 gpm models and as combination UV/filtration racks systems. The AQUV line is available exclusively to professional plumbers and water dealers; no retail or online availability.
