NEW PRODUCT

Navien Inc.

NPF700 Hydro-furnace

Category: Heating, Ventilation

The New Navien NPF700 takes an innovative approach to residential heating. Using hot water provides superior humidity control while enabling industry leading capacity control, (15-100%) heat and airflow. A unit mounted interface with built in set-up wizard allows quick set-up and system optimization for all modes: heating, cooling, IAQ and dual-fan applications. The year-round custom comfort solutions.
