Mainline Backflow Products Inc.

Mainline Top-Check Fullport Valve with Arm

Category: Plumbing and Piping

Mainline's Top-Check valve features a top suspender gate which stays forever clean and out sewage flow. The clear lid & cleanout provide ease for visible inspections and sewer rodding. Manual control provides owner the option to manually close their valve and easily flush it clean. An optional alarm system alerts the building owners when valve activates during a backup—smart home compatible.
